1. Enter a name for the homework; this will appear in your dashboard and the student's dashboard

Dashboard > Create Revision Task

Create Revision Task

Test name ...

Published Date: Monday, February 27th 2023

Due Date: Monday, February 27th 2023

-- Choose Class --

3. Select the deadline for the homework to be completed. FYI, students can still complete the homework after the deadline is passed - but the colour of tile in the student's homework will change from amber to red

2. Select the date you'd like the homework to become visible to the students. This enables you to set homework in advance without students seeing it before you want them to

4. Select the class you'd like to give the homework to

1. Select the section that you'd like to test

3. Select the pages that contain the content that you'd like to test. Hold the CTRL key down to select multiple pages

2. Click on this button to launch the revision guide - to see which pages of the guide that you'd like to test

Entering a limit will randomly remove questions

Select 'Preview' if you'd like to check the questions (and remove any you don't want your students to answer) before setting the homework)

This information tells you how many marks are in the test and how long a typical student is likely to take to answer them

Pressing the green button sets the test for all the students selected
